

Prairie Mud Service

"Serving Western Canada with 24 Hour Drilling Mud Service"

COMPANY SAFETY POLICY

WHAT IS HEALTH AND SAFETY?

Health and Safety are an integral part of the daily operations of the company. Safety is there to protect our employees, customers, property, the environment, and the public.

WHY IS SAFETY IMPORTANT TO THE COMPANY?

There are many costs to accidents and unsafe work practices. The greatest costs are human costs. By protecting our employees we are also protecting their friends, families, fellow workers, management, the public, and the environment from the far-reaching effects of serious accidents. We are also protecting our ability to continue doing business and employing people.

In addition to protecting lives, our safety program contributes to employee morale and pride because our employees participate in identifying safety needs and developing safe work procedures.

WHAT ARE THE ALTERNATIVES TO SAFETY?

Employees, contractors, and sub-contractors who knowingly violate safety rules may face disciplinary action, dismissal, or legal action. Visitors may also face legal action if they knowingly disobey safety rules. In addition, the company may face legal action and fines for violations of regulatory requirements. Those individuals who do not fulfill their safety responsibilities will become accountable for any problems their negligence creates and may be liable under law.

WHO IS RESPONSIBLE?

Everyone employed by Prairie Mud Service are responsible for maintaining the safety program. Managers and Supervisors are responsible for identifying the safety needs, communicating safety hazards, investigating hazards conditions and accidents, providing training, supplying appropriate safety and personal protective equipment, and ensuring all equipment is properly maintained and meets legislated safety standards. Their role is supported by input from all employees.

All company employees and others on company worksites are responsible for obeying all safety rules, following recommended safe work procedures, wearing and using personal protective equipment when required, participating in safety training programs and informing supervisors of any unsafe work conditions. Everyone has the right and responsibility to refuse to do work when unsafe conditions exist.

By fulfilling our Health and Safety responsibilities, everyone who works for our company will share the benefits of a safe workplace
